To: The Honourable the Speaker and Members of the Legislative Assembly of Queensland
The petition of residents of the State of Queensland draws to the attention of the House that the current Model Code's of Practice for the Welfare of Animals: *Domestic Poultry, Land Transport of Poultry* and *Livestock at Slaughtering Establishments*, regulated and adopted under the *Animal Care and Protection Act (Queensland) 2001*, do not afford the same protection for chickens as they do for other animals. **Consequently, every year approximately 470 million chickens endure inhumane living conditions, transport and slaughter practices.**
Your petitioners therefore request the House to:

- Review the Codes of Practice adopted in Queensland;
- Legislate restrictions on genetic strain selections for rapid growth;
- Introduce mandatory reporting.
